Gravity and mass It is said to have been the sight of an apple falling from a tree that, around 1665, gave Isaac Newton the idea that the force that pulls an apple to earth is the same as that which keeps the moon in its orbit around the earth. Thu, 18 Apr 2019 23:25:00 GMT Gravity and antigravity (1) - David Pratt - Thomas Townsend Brown (March 18, 1905 - October 27, 1985) was an American inventor whose research into odd electrical effects led him to believe he had discovered a connection between strong electric fields and gravity, a type of antigravity effect. Instead of being an antigravity force, what Brown observed has generally been attributed to electrohydrodynamics, the movement of charged ...

These scalar waves do not actually exist in our "material" world, but exist only in the ...
